PRESS RELEASE

Net Entertainment re-signs agreements with Bet24 and the Entraction Group

Net Entertainment has renewed its license agreements with Bet24 and Entraction (former 24Hpoker), for the delivery of the award winning CasinoModule™.

Net Entertainment will continue to provide Bet24 with their online casino solution enabling their customers to access a wide selection of top class casino games. "Net Entertainment provides us with frequent new games, high-end graphics and an efficient and stable back-end management system. We are very pleased that their CasinoModule™ will be a core part of our offering moving forward," says Lotta Lindquist Brosjö, CEO for Bet 24.

During 2008, Net Entertainment will continue to enhance the CasinoModule™ with new exciting games and system functions. Net Entertainment's ongoing product development ensures that the licensees at all times can offer the latest in game development whilst in total control over every part of service delivery.

Net Entertainment has also extended the license agreement with Entraction. "We aim at offering our customers the market's best selection of gaming products and the CasinoModule™ is an important element in our product portfolio," says Peter Åström, CEO of Entraction.

"I am very pleased to announce that two such renowned operators have decided to renew their agreements. Net Entertainment will continue to ensure that our licensee's casinos will compete at the highest level possible," says Johan Öhman, CEO for Net Entertainment.

Net Entertainment develops digitally distributed systems for Internet gaming. The core product, CasinoModule™, is a complete gaming platform that comprises a high number of browser based games as well as a powerful administration tool. Customers are offered a system solution that is adapted to each customer and is easily integrated with their existing websites. Net Entertainment licenses the CasinoModule™ on a royalty basis based on the revenues the product generates. Net Entertainment is listed on the Nordic Growth Market (NET-B).
