PRESS RELEASE

Major European gaming operator selects Net Entertainment

Net Entertainment has signed an agreement with a major European gaming operator for the delivery of the award winning CasinoModule. The contract was awarded due to the impressive platform features adding value to the already acknowledged games portfolio.

The operator, who wishes to remain anonymous at this time, has an extensive player base making it one of Europe's leading gaming sites.

The contract will allow the operator to offer its player base the complete Net Entertainment product portfolio. This includes Net Entertainment's Multi Player casino games and progressive jackpot network. Through the seamless wallet functionality, the operator will also be able to place games throughout its site supporting extensive cross promotional activities.

"This is a definite proof that our customers chooses Net Entertainment not only for the superior quality of our games but also for the range of platform features enabling the provisioning of a great player experience", comments Johan Öhman, CEO for Net Entertainment.

Net Entertainment and its new customer are working hand in hand in order to launch the CasinoModule within the shortest possible time.
