PRESS RELEASE

Net Entertainment renews agreement with BetClick

Net Entertainment has renewed its license agreement for another three years with BetClick for the delivery of the award winning CasinoModule™.

Net Entertainment will thereby continue to provide BetClick with their online casino enabling their players to access a wide range of first class games. "We are very happy with the services Net Entertainment provides and the performance of the CasinoModule™ which we have selected as the strategic casino platform across our entire operation" says Nicolas Beraud, CEO for BetClick.

BetClick has rapidly become one of the larger European online sports books and is owned by Mangas Gaming. It was recently announced that Mangas Gaming will acquire the Scandinavian sports book Expekt and Bet-at-Home (of which the latter already is a customer of Net Entertainment) thereby creating one of the largest European online gaming operations.

"The renewal of our agreement with BetClick shows the strength of the business relationship which has been established between our companies" says Johan Öhman, CEO of Net Entertainment and continues "The CasinoModule™ has a proven track record as one of the most profitable gaming solutions."

Net Entertainment develops digitally distributed systems for Internet gaming. The core product, CasinoModule™, is a complete gaming platform that comprises a high number of browser based games as well as a powerful administration tool. Customers are offered a system solution that is adapted to each customer and is easily integrated with their existing websites. Net Entertainment licenses the CasinoModule™ on a royalty basis based on the revenues the product generates. Net Entertainment is listed on the NASDAQ OMX Stockholm (NET-B). More information about Net Entertainment is available on www.netent.com.
