In the original *Jumanji* film, a long-forgotten board game has the power to unleash chaos. Now NetEnt brings *Jumanji* to the world of online video slots with a five-reel game packing all the excitement of the movie.

NetEnt brings its own twist to the *Jumanji* universe by transforming the calamities that befell Alan Parrish into features with slot mechanics. *Jumanji* is a five-reel video slot game with 4 random features, a Board Game with 4 different Free Spins, a Mystery Feature, coins wins, and extra dice rolls.

*Jumanji* is the first of its kind and a new innovation in video slots as the game merges both board game and video slot game elements together. Additionally, the board game includes both free spins and a mystery feature.

Fans of the film are in for a treat as they will recognize four famous features in the *Jumanji* video slot game:

- **Wild Stampede:** Rhinos will stampede across the screen while the reels spin, adding four to nine Wilds.
- **Monkey Mayhem:** Awards potential wins when the reels have stopped, before all symbols are shuffled randomly to create a guaranteed win
- **Monsoon Wilds:** One or two reels will be completely covered in Wilds while the reels spin.
- **Sticky Vines:** All symbols that are a part of a win and all Wilds from the initial spin (even if they are not part of a win) stick to the reels, and all other symbols spin again.

**Henrik Fagerlund, Chief Product Officer of NetEnt says:** “The *Jumanji* movie was a great success and we know it has fans all over the world. Making a slot game true to the fantastic features of the movie has been challenging but most of all great fun. We found a way of incorporating both board game features and all the excitement into a slot game and the game has already been well received by players!”
