## NetEnt launches suspense-filled Spinsane™ – a wolf-themed slot with serious bite

Spinsane is a high-energy game with a land-based feel and big pay-out potential.

Spinsane, the latest release from NetEnt's world-leading production studio, is a high-energy game with a land-based feel and big pay-out potential.

The 5-reel, 3-row, 27-line video slot is based on classic stepper mechanics and has a look and feel that brings the ultimate slot machine experience, boosted with suspense effects randomly activated to add to the excitement.

Wild symbols, Scatter symbols, regular symbols, super symbols, and blank spaces can appear on the reels. For each winning bet line, super symbols can substitute for the regular symbols of the same kind to pay the highest possible winning combination. The game features Free Spins with one random Overlay Wild Reel for each spin. Scatter symbols in Free Spins also rewards players with additional free spins.

“Spinsane is built to be simple with big pay-out potential, but with multiple features to tease and thrill it's also designed to entertain. With up to 9000 times your stake it will appeal to fans of high variance and land based mechanical slots alike. Something quite new to our portfolio and very exciting release for NetEnt”, **said Bryan Upton, NetEnt Director of Games.**
