## NetEnt games live in Pennsylvania, USA

**As expected, the new regulated online gambling market in Pennsylvania has opened. After successful integrations, NetEnt's games are now live in the US state.**

In March this year, NetEnt, through its subsidiary NetEnt Americas LLC, was granted an Interactive Gaming Manufacturer Conditional License by the Pennsylvania Gaming Control Board (PGCB).

Pennsylvania is the second large US state to regulate online casino and with almost 13 million people, it is the fifth largest state by population. The state has a long tradition of gambling on the land-based side. As previously communicated, NetEnt has signed customer agreements with several gambling operators in the state and has been preparing to launch its games as the market opens.

*"I am very pleased that the market in Pennsylvania has now opened. We are one of the few online casino suppliers offering our games right from the start, and I am convinced that our award-winning online casino games will be much appreciated by players in Pennsylvania",* says Erik Nyman, Managing Director NetEnt Americas LLC.
