NetEnt enhances video slot selection with Imperial Riches™

Step into a world of splendour and serenity with Imperial Riches. This jackpot-packed game takes players on an exciting journey to the Far-East

Set in a Chinese garden, this 5-reel, 3-row video slot features NetEnt's signature Avalanche™ concept, where in both the main game and during Free Falls feature symbols fall into position onto the reels instead of spinning.

During the feature, a winning bet line triggers an Avalanche, where all symbols in winning combinations apart from Scatter symbols light up and disappear to continue the avalanche until there are no more wins.

Free Falls are activated when at least three Scatter symbols land randomly on three reels and offer players the chance to collect jewels in the Lucky Pond – a bonus game which can unlock the jackpot if "Bonus Fish" eat three or more jewels.

With three progressive jackpots and two fixed-value jackpots on offer, Imperial Riches™ makes for a creative and exciting new addition to NetEnt's industry leading video slot portfolio.

"This game is packed with features. We are continuing with our Jackpot successes this year, with Imperial Riches™ but with our Avalanche™ mechanic. The 3 stage nested bonuses give players a chance to experience the Free Falls game, collecting jewels from wins for entry into another coin win feature and then a Jackpot bonus game. The chance to win one of five realistically priced jackpots and the beautiful, authentic Asian artwork and

theme makes this game speak the promise of fortune for players across the board.” **said Bryan Upton, NetEnt Director of Games.**
