NetEnt launches Perfect Blackjack across its operator network

The traditional table game is transformed by the first-of-its-kind product that allows players to learn perfect blackjack strategy

NetEnt has integrated Perfect Blackjack to its Live portfolio, allowing all current and future customers to present the unique title that offers a fun-friendly return-to-player (RTP) of 99.5%.

The acquisition-focused game was developed in conjunction with Rank Group's Grosvenor Casinos, the UK's largest multi-channel casino operator, and is now available across the NetEnt Live network.

With the house edge trimmed to just 0.5%, Perfect Blackjack deals players the ideal hand every time, allowing them to follow, watch and learn flawless strategy. It is also the only live dealer blackjack game to offer optional autoplay functionality, with players pre-selecting whether to auto-split or double down. The inclusion of multi-seat and multiple players per box gives even more scalability and flexibility. The game also includes side bets such as perfect pair.

“Launching Perfect Blackjack onto the full NetEnt Live customer network means that players with all our live casino partners will be able to be introduced to and enjoy the benefits of the optimal strategy. Beyond that, this is an innovative game that brings something truly different to the live casino market and we have seen that it's an entertaining and popular product,” said **Andres Rengifo, Director of NetEnt Live**.

NetEnt Live has undergone major changes last few weeks with a brand-new user interface launched across the portfolio.
