

PRESS RELEASE 13th January 2020

## NetEnt Connect launched with multiple new operators

Following the successful soft launch of the content aggregation platform NetEnt Connect in December, several new operators from different markets have now connected and a wider range of games has been added

NetEnt first launched its content aggregation platform NetEnt Connect early in December 2019 with Casino Room (Ellmount Gaming Ltd.) when a range of Red Tiger games was launched. After a valuable period of validation and monitoring, NetEnt Connect is now growing rapidly, both in terms of the number of operators connected and amount of content being made available to operators.

NetEnt Connect has since launched with Bethard and with GML Interactive Brands Stoiximan (Greece) and Betano (Germany). Initially a selection of games from NetEnt Group-owned Red Tiger was available through the platform, now the rest of the portfolio of 99 games in total is quickly being added. Soon Red Tiger's Daily Timed Jackpots will also be available to connected operators.

"The beta launch of NetEnt Connect has been successful. Now we are looking to ramp up even more to make use of NetEnt's far reaching customer relationships and integrations. We are also looking forward to widening the portfolio of content by adding more suppliers to the platform." said **Rob Fell, Director of NetEnt Connect**.
