# NetEnt awakens the Kraken in Ocean's Treasure™

Supplier's new game takes players to a world of sunken treasures and action-packed slot fun

NetEnt is submerging players in an underwater slot adventure for a chance to find hidden prizes guarded by the ominous Kraken in its latest release Ocean's Treasure™.

Inspired by the long-lost city of Atlantis, the new 5-reel, 3-row video slot is flowing with features, including Stacked Wilds and Free Spins with an increasing Level Multiplier to amplify excitement with every spin.

To unlock the Kraken's treasures, players need to collect three Scatter Symbols and enter 5-level Free Spins. With each Wild that appears on the reels, they are awarded with additional spins and advance deeper into the ocean, unlocking new levels and increasing the Level Multiplier by up to x12.

With the potential to gain up to 102 additional Free Spins and an RTP of 95.99%, Ocean's Treasure is a dynamic title aimed at players who enjoy high-volatility gameplay.

"Ocean's Treasure's combination of an immersive theme, striking graphics and anticipation building features is tailored to grab the attention of experienced slot fans and those in search of high-intensity a play session. Awarding more Free Spins to lucky players than any other NetEnt game and the potential for huge prizes, this deep-sea slot will make a lucrative addition to our partners' portfolio," says **Bryan Upton, NetEnt Director of Games**.

Earlier in February NetEnt has also launched *Rise of Maya*, *Secret of the Stones* with its MAX version and before the end of the month Asian themed *King of 3 Kingdoms* will be launched across the operator network.
