NetEnt gives fresh twist to a classic with Twin Spin™ Megaways™

Supplier brings together its catalogue of iconic features with the famous Megaways™ mechanic

NetEnt has combined one of its most successful slots with the industry's top mechanic in Twin Spin™ Megaways™, offering an electrifying player experience with a star-studded feature set.

The 6-reel title sees the return of the classic Twin Reel feature, which has been complemented by NetEnt's popular Avalanche mechanic and Megaways™, on licence from Big Time Gaming.

With old-Vegas aesthetics, including retro-style graphics and smooth jazz sounds, the feature combination adds an extra twist to the game experience as the number of symbols on the reels is randomly chosen on each spin, reaching up to 117649 Megaways™.

In Free Spins, players can enjoy the same exciting features of the original on an even more exciting level, with x2 and x3 Wild Multipliers boosting payout potential.

Offering an RTP of 96.04%, Twin Spin™ Megaways™ packs in the action for a simple yet highly entertaining gameplay with wide-ranging appeal.

"Twin Spin™ is a signature title in our portfolio which continues to attract players years after release, so with the addition of the Megaways™ and Avalanche features, we expect this title will be one of our biggest releases of the year," said **Andy Whitworth, Chief Commercial Officer at NetEnt**. "The look and feel of the original have been replicated perfectly to match the excitement of the enhanced gameplay, making Twin Spin™ Megaways™ a headline game that will no doubt draw in the crowds for our operator partners."
